DURING EMERGENCY**

New Fire Safety Rules in **DCPR 2034 & UDCPR for Maharashtra**

The Development Control and Promotion Regulations (DCPR) 2034 for Greater Mumbai and the Unified Development Control and Promotion Regulations (UDCPR) for Maharashtra have introduced stricter fire safety norms:

Fire Evacuation Lift: Mandatory for 70 metres and above building.

Advanced Lifts: Must have power backup, fire-resistant cabins, and glass, able to reach the top floor from ground level within a minute.

Usage as Regular Lift: These lifts can be used as regular-use lifts for maintenance purposes and should carry minimum 8 person.

Building Height: High-rises must include fire towers with 2-hour fire resistance, evacuation lifts and ventilated lobbies integrated with fire escape staircases.

Compliance Penalty: Non-maintenance of fire installations or failure to secure certifications could lead to fines, penalties, or even withdrawal of the Occupation Certificate.

Features of City Lift - Fire Evacuation Lift

Fire Resistance

Equipped with 2hours fire-resistant cabins and doors to withstand high temperatures during emergencies.

Power Backup

Integrated with an independent 30 Minutes power supply to ensure functionality even during power outages.

High-Speed Operation

Designed to reach the top floors within a minute, ensuring quick evacuation, we have speed ranging from 1.5m/sec to 5m/sec.

Trap Door

A trap door is provided in the lift car roof for purposes of escape from the lift car by firefighters. Additional ladders are provided to facilitate escape from the lift car.

Intercom All Floor

2-way communication at each floor between the master station and lift car.

Dual Use

Usable for daily operations, ensuring regular maintenance and reliability during emergencies.

Vision Panel

It is specially designed to withstand exposure to fire while providing visibility and protection from smoke and flames.

FRLS Cable

They can withstand high temperatures for a specific period when exposed to direct fire.

SAFER,
RELIABLE**

A LINEAGE OF ELEVATED PERFORMANCE

Founded in 1985, City Lift is one of the most trusted names in tech-enabled elevator systems in India. Backed by a proven track record in Designing, Outsourcing, Marketing & Servicing internationally competitive vertical transportation products, the company has bagged several prestigious projects from reputed builders, infrastructure giants and government institutions. What makes City Lift click is its exceptional stronghold in technology coupled with strategic alliances with global elevator giants to design and deliver customised elevator systems, irrespective of size and scale.

City Lift's single window advantage clearly makes it a partner of choice when it comes to efficient new-age, elevators, escalators and automated car parking systems. With over 4000+ elevators successfully installed and serviced from time to time, City Lift is now gearing up for rapid expansion.
